ISSUED BY THE
Superintendent of Documents

NO. 578

MARCH 1943

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON : 1943

FOR SALE BY THE SUPERINTENDENT OF DOCUMENTS
WASHINGTON, D. C., PRICE 20 CENTS PER COPY
SUBSCRIPTION PRICE \$2.00 PER YEAR
FOREIGN SUBSCRIPTION \$2.60 PER YEAR

General Information

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The sales stock, which amounts to more than 8 million, includes approximately 65,000 different titles. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a semimonthly list of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a session of Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents and reports because there are usually more than 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division

issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 31, 78-1.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5¢ that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, Newfoundland (including Labrador), and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check list of United States public documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior or inferior number (the numbers immediately following the line) from the main classification number, it not being practicable to print these numbers as superiors or inferiors in the Monthly catalog.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for many publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Card Division, Library of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly catalog is sold on subscription, price \$2.00 a year, including index; foreign subscription \$2.60 a year. Back numbers cannot be supplied. **Notify** the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

Foreign Funds Control

The Foreign Funds Control was established in Apr. 1940 to administer the provisions of Executive order 8389, dated Apr. 10, 1940. Under the authority of said order the Control regulates, in the interest of the United States, the use and disposition of the bulk of the \$7,500,000,000 in property and funds held here by Governments and nationals of enemy and enemy-dominated countries.

Foreign Funds Control was given bureau status in the Treasury Department by Treasury Department order 47, effective Sept. 22, 1942.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1:62,500 or 1:63,360 (1 mile to the inch). Maps of more than 1,585 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from negatives on file are sold for 50 cents per copy. Each county map shows in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Superintendent, Division of Finance, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Superintendent, Division of Finance, Post Office Department, Washington, D. C. SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are especially interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1. Smithsonian contributions to knowledge; 2. Smithsonian miscellaneous collections; 3. Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to book dealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

The only Smithsonian publications that are regularly issued as public documents are the annual report volumes. The publications in the other series have free transmission by mail, and, therefore, are included in the Monthly catalog.

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz. Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. STATE DEPARTMENT

NOTE.—All publications of the Department (except laws and treaties) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations

of the United States. Laws are first published in slip form in separate series (public and private) and are numbered within each series in the order in which they become law; they are later published in bound form in the United States Statutes at large. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation *Treaties and other international acts of the United States of America*, which contains literal copies of the documents, followed by notes of a textual and procedural character. The Department of State Bulletin, published weekly and indexed semiannually as of the dates of the last issues in June and December, contains the texts of the daily mimeographed press releases, information regarding treaties, and other material on the Department's work. The Bulletin contains each quarter a complete list of the Department's publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

For information concerning Executive orders and Proclamations of the President, formerly published by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, see National Archives, Federal Register Division, *Federal register*.
